LITE, JR and PRO

QUESTION

How do you change the field labels (description) for the User Defined Directory fields shown on the bottom of the Station Screen ?

ANSWER

The directory fields on the main Station Screen show the titles Directory 1 – Directory 15 by default. These can be customized by RIGHT CLICKING on the field name. When you RIGHT CLICK you will see a dialog that allows you to change the field label. When you select OK to save changes, that field is changed for all records in your system.
