The information in this article applies to:

LITE, JR and PRO

QUESTION:

What port does the Comm One Email Utility use to send Email?

ANSWER:

Comm One Email Accounts are hosted by godaddy.com. The default godaddy.com email port numbers are:

Pop Without SSL – 110

Pop With SSL – 995

SMTP Without SSL – 25,80,3535,587

SMTP With SSL - 465

We usually use:

POP: 110

SMTP: 3535

POP SERVER NAME: pop.secureserver.net

SMTP SERVER NAME: smtpout.secureserver.net
